Re: K-6 Elementary Reading Textbook Adoption

Members of the Elementary English/Language Arts Adoption Committee have selected the following curricular programs for the subjects of English/Language Arts and Spelling for the adoption period of July 1, 2014 through June 30, 2020:

Grades 1-6: Shurley English

Re: Audit Report for 7/1/2011 – 6/30/2013

The overall audit was good with no major issues. The Indiana State Board of Accounts made some changes in the documentation requirements.

- 1) ADM (Average Daily Membership) report need building administrator's signature
- 2) Schedule of Expenditures of Federal Awards This was a new requirement placed on school corporations to have ready prior to the auditor's arrival. It lists all the federal grants receipts/expenditures within the audit period. Western Boone School Corporation had this report ready; however, we did not have a second signature on the report showing more than one person had reviewed the report.
- 3) Capital Assets Report Any capital asset item over \$5,000 should to be listed on Western Boone's Capital Asset Report. Three separate purchases made thru the School Lunch Program and ARRA-Special Education Grant were mistakenly left off the report. They have been added onto the capital asset report.
- 4) Federal Fund Reimbursement Requests The auditor's stated that there was not a second signature on reimbursement requests for federal funds such as School Lunch Program, Special Education, etc. There were no issues with the amounts which the corporation had requested to be reimbursed for. The auditors stated that we need to show that a second person is looking at the reimbursement request prior to submission.

Re:

Teacher Effectiveness Ratings

The Educator Effectiveness Ratings Report was released by the IDOE on Friday, April 4<sup>th</sup>. The report provided our administrative team with an opportunity to look at the teacher performance ratings reported for Western Boone compared with those of other districts across the state. The percentage of Western Boone teachers ranked in the Highly Effective and Effective Categories combined was comparable to the statewide results, with Western Boone reporting a combined total of 85.8% in the Highly Effective and Effective Categories, and statewide results reporting 87.58%. Western Boone reported 7.5% of teachers in the Improvement Necessary Category and 0 teachers as Ineffective Category. Administrators have helped teachers identified as needing improvement to develop improvement plans which include professional development in the areas of weakness and increased classroom observations. The Teacher Effectiveness Ratings appear to have a strong correlation to the recognition Western Boone has received from the Department of Education over the past two years. High standards, clear expectations, and support for teachers who seek improvement have resulted in each of Western Boone's schools earing a letter grade of an A for two consecutive years.
